Wireless data loggers systems - **XpertLog[®]**

A new vision of mapping and thermal validation

Main Advantages:

Hardware:

- FDA approved material used, solvents resistant
- light (30 g battery included) but not fragile!
- sturdy - standard industrial chocks resistant
- sensor: PT-100, 4 wires, flexible or fixed
- modular docking station (from 4 to 64 loggers simultaneously)
- programming/ reading up to 64 loggers
- lithium battery
- temperature range
 - electronics: -60 to 140°C
 - sensor: -100 to 200°C
- accuracy: 0,1°C
- memory capacity: 16.000 points

Software:

- US & CEE regulation compliant
- **21 CFR Part 11 ; electronic signature**
- verifications before and after the test, calibration off line & on line
- customized reports, statistics, no limitation of loggers in the report
- multiple acquisition intervals in the same report
- user friendly software
- training included
- **and many more**

Applications:

Autoclaves, oven, stability chambers, freezers, refrigerators, freeze dryers etc...
